DANIEL DOMÍNGUEZ RUBIO

Full Stack Developer

"Full Stack developer (Web stack). I've used PHP, MySQL, Bash for deploy and sysadmin tasks. I've also used a lot of CSS & HTML for responsive websites, and of course Javascript. I don't mind using other programming languages like Java or C#."

Professional experience

Panaworld S.L *(2009 – 2018)*

A company dedicated to Internet and Advertising business. While I worked with them, they ruled a portion of the browser video games sector, taking advantage of SEO to attract traffic and create a business with it.

- **Full Stack Developer, Product Manager & SEO**
  (2013 – 2018)
  In addition to continue with Full Stack Development they made me responsible for the company's products. Technical and semantic management of the problems that arose in SEO. Some personnel in charge. Google Analytics analysis. Competition research. Direct report to the CEO. I also programmed some mobile games with Unity and C#.

- **Full Stack Developer**
  (2010 – 2013)
  I started working on both Backend and Front. I wrote code with PHP and a custom framework we made. I took care of the MySQL databases. I made responsive sites with CSS / HTML and JS. I created REST API's and was in charge of servers, Debian, Nginx, MySQL, Cronjobs, etc.

- **Junior Frontend Developer**
  (2009 – 2010)
  Upon entering the company they gave me layout tasks, using HTML, CSS and Javascript for the job.

Cerámicas Montgatina S.L *(2007 – 2008)*

- **Robot machinist operator**
  Assistance and programming ABB Robot for the manufacture of fine dining dishes.

Ball Corporation / Aerocan *(2004 – 2007)*

- **QC operator**
  Quality control in production line.

And others ...
